Very poorly optimized game. Despite being such a simple game it still lags a lot and runs at like 20fps even on the lowest settings. Also on the first level I was unable to figure out a way to open the damn sliding doors and go through. AND also every time I go back to menu the game would go back to windowed mode despite setting fullscreen in the settings. Until you optimize the game properly I wouldn't recommend this game to anyone with an older laptop. Refund requested..... first level took me 45 minutes...

not looking good for the rest of the game lol

would recommend. dont believe the people who gave this a positive review,they are probably friends of the dev and 90% of them received this for free,and most of them didn't even play this or try to beat this for 30 minutes

graphics:good

concept:good

game mechanics:meh

camera:idiotic

level design:fucking bull\u2665\u2665\u2665\u2665\u2665\u2665 driving:even more

bull\u2665\u2665\u2665\u2665\u2665\u2665 physics:\u2665\u2665\u2665\u2665\u2665\u2665\u2665nightmare

seriously it's \u2665\u2665\u2665\u2665ing impossible to beat this and it's good,good kind of challenge but the \u2665\u2665\u2665\u2665\u2665\u2665t design makes it impossible and the bad driving mechanics and stupid game physics make it even worse,I didn't even beat so called tutorial level after 1 hour of game time,just stupid,idiotic,unpolished you won't see even 30% of content what this game offers you because you'll be stuck in tutorial level,don't buy it
